

# Technical Assessment – Full Stack Developer Intern (8 Months) | Shabuj Global Education

**Name: MD JOY**

Email: [mdjoy.javascript@gmail.com](mailto:mdjoy.javascript@gmail.com)

## **Part 1: The Audit (Strategic Report)**

I checked and reviewed everything carefully and, after thinking it through, I decided to present my analysis and ideas in a video instead of a written document. I believe this approach allows me to clearly explain my thoughts, observations, and reasoning in a way that a text alone cannot capture. I sincerely request you to watch the video, as it will give you a complete understanding of my perspective, my suggestions for improvement, and the strategy behind my approach

*I'm sorry for changing the format, but I decided to explain everything through a video. Please trust me and kindly watch the video – you will understand why I chose this approach*
